INTANGIBLE BENEFITS

- You will get all of the clinical and supervision hours you need to fulfill post-graduate requirements for full licensure as an LMFT in Illinois. This includes those difficult-to-get conjoint hours.
- You will learn how to do couples therapy and receive intensive supervision from a Master therapist. Dr. Atkinson is the principal architect of a cutting-edge couples therapy model that translates new findings from neurobiology and relationship science into powerful, practical methods for improving relationships.
- You'll work with a team of the most passionate and experienced couples therapists in Illinois.
- You'll have access to a vast repository of resources -- an enormous amount of worksheets, workshop summaries, tools, audio recordings, and pretty much anything you could possibly need. Most of this material was created by Couples Clinic therapists and is copyrighted by the Clinic.
- 2 weeks vacation.
- Very flexible schedule. You just need to provide 20 hours of therapy per week *during prime time blocks** and come to trainings and supervision. Other than that – you get to determine how many days you work and when you work.
- 24/7 access to clinical supervisors.
- The Couples Clinic provides a comprehensive marketing campaign – so you never have to spend time finding clients.

*Prime time blocks = M-F 4-9 PM; Sat/Sun between 8-6.
